

OPERATIONAL SOFTWARE / FIRE · SECURITY · FIELD SERVICE

Bring the whole operation into view.

Connect the work between enquiries, jobs,
field teams and business records.

01 Office

02 Field

03 Management

One connected
operational picture.

THE OPERATIONAL REALITY

Too much of the operation lives between systems.

sheet

FIELD WORK

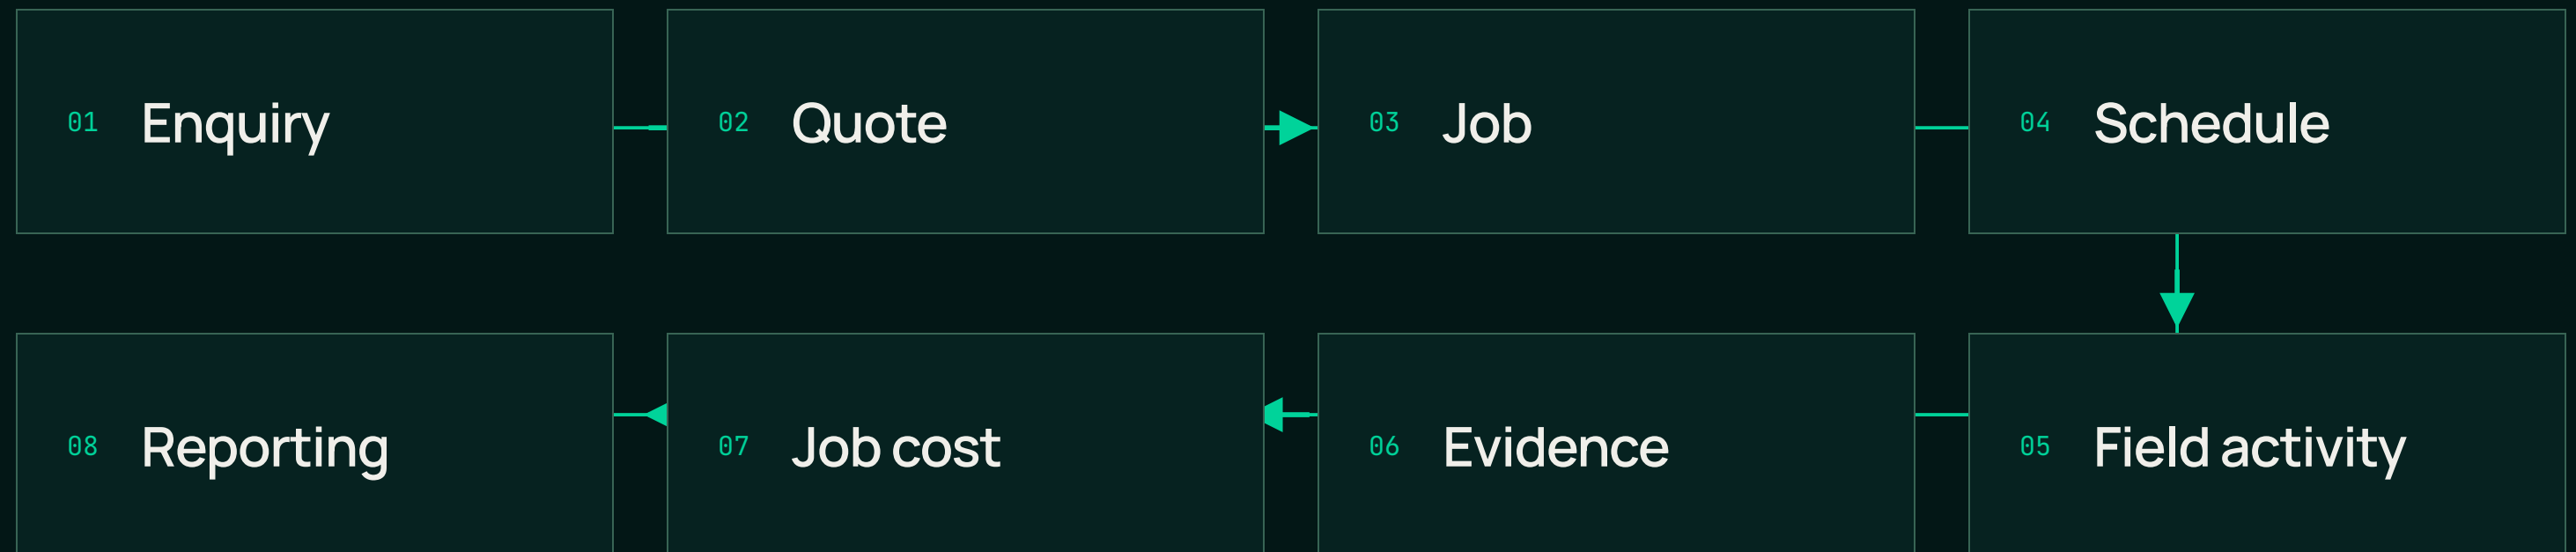

--x Photos &
paperwork

Someone has to join it all up.

Chasing updates. Re-entering information. Reconstructing
job costs.

THE CONNECTED OPERATION

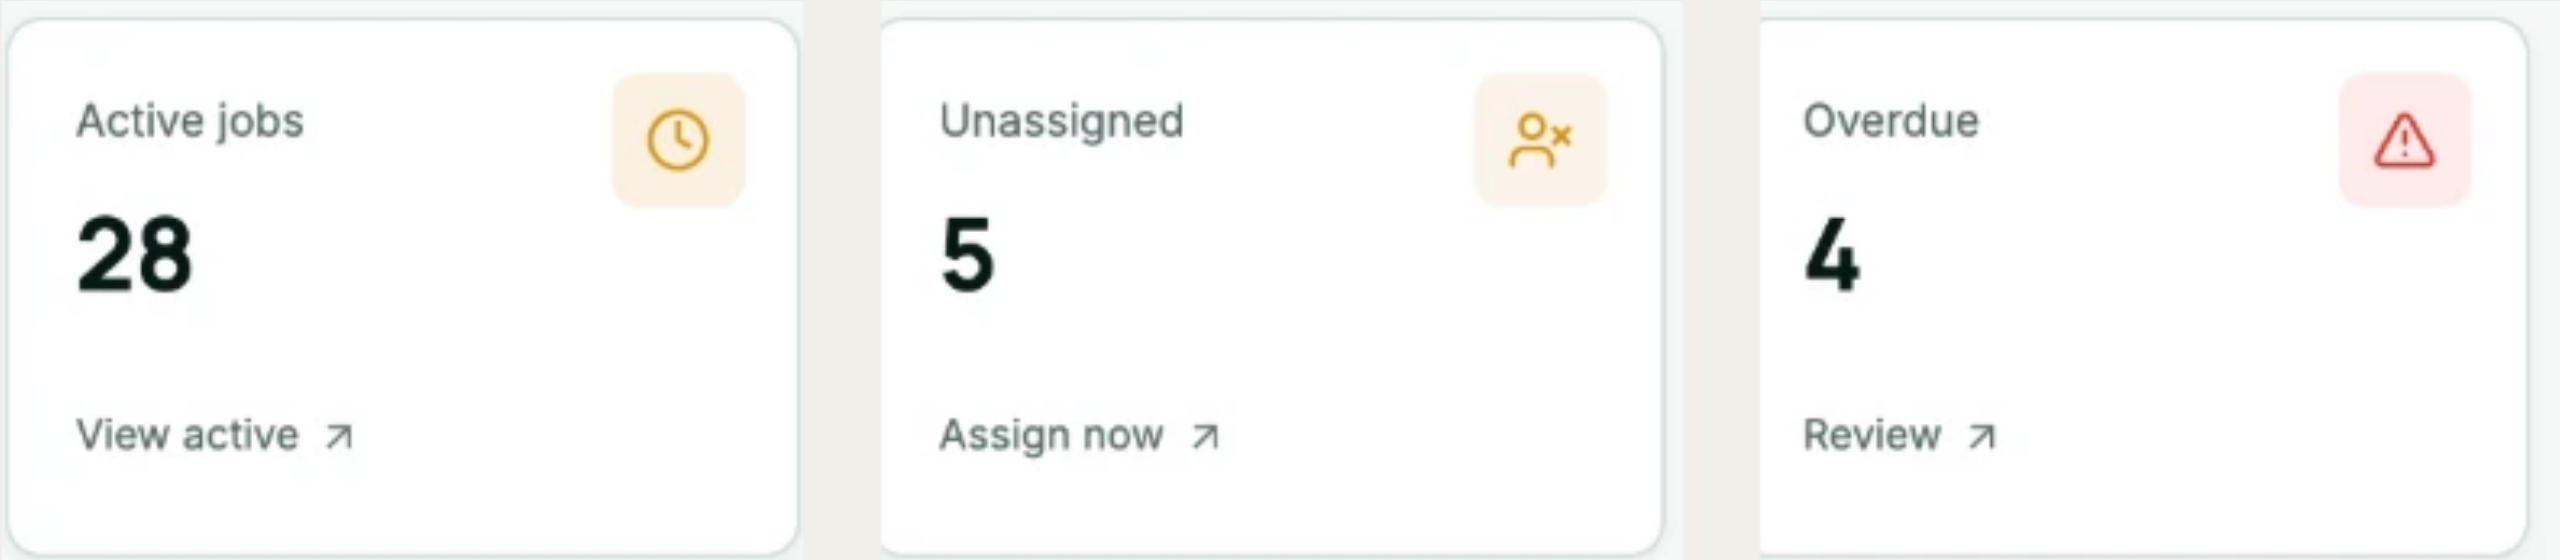

One flow, from the first enquiry to the business view.

Customer and service history stay with the work.

A LOOK INSIDE SENTINEL VERO

See the work that needs someone’s attention.

Selected platform details from the public website.

OFFICE

Customers → Quotes → Jobs

DELIVERY

Scheduling → Labour → Job costs

RECORDS

Evidence → History → Reporting

WHAT THAT MEANS FOR THE BUSINESS

A clearer view of the work helps you run the business.

TODAY

Chasing updates

Hunting for paperwork

Reconstructing job costs

Relying on someone's memory

A CONNECTED OPERATION

→ See job status

→ Find the job record

→ Review labour and costs

→ Keep customer history

REAL-WORLD FOUNDATION

Built with the industry around the table.

OPERATIONAL FOUNDATION

Volt Secure

An early version of the underlying system
is already used within Volt Secure.

Fabrizio

Commercial & growth
